

SHOW RULES

- Please refer to the *VRGC Guide for Entrants to the Mini Show, 2019* for tips on how best to exhibit your flowers, fruits & vegetables.
- All entries must have been grown by the exhibitor for at least two months prior to the show and three months prior for potted plants. Flowers in decorative division must be from the exhibitor's or a friend's garden (**NOT PURCHASED**).
- Exhibits are to be of 1 stem unless stated otherwise.
- Exhibitors may show more than one entry in a class provided they are different cultivars or species (see Definitions).
- Exhibits are to be prepared at home, using your own containers. There will be no set up table at the hall. Your containers will not be judged except for the Decorative Division. Meat trays or paper plates are a good option for fruit & veg. Please also prepare your entry form at home; extra copies will be available at the hall.
- The tabling of diseased/pest infested plant material is not permitted and such plant material will be removed.
- Unless otherwise specified, companion planting, specifically the growing of 2 or more plants of different cultivars, species or genera in one container is not permitted.
- Fruit and vegetable exhibits should contain the number of items specified in the *VRGC Guide*.
- The judges or the Show committee may subdivide classes in which there are large numbers of entries.

DECORATIVE DIVISION:

Exhibit: Plant material with or without accessories. Bases, backgrounds and title cards may be included. Plant material must predominate over all other components of the exhibit. Fresh plant material must be in water or in water-retaining material.

No artificial plant material. Painted and/or artificially coloured plant material will be accepted in Decorative Division only.
